BLISTER PACKAGING LINES

TOOLINGS, FEEDERS AND AUTOMATION

WE ADD VALUE

Based in years of experience in the industry and, as a pharmaceutical company, we can provide efficient turn-key applications for the whole pharma process.

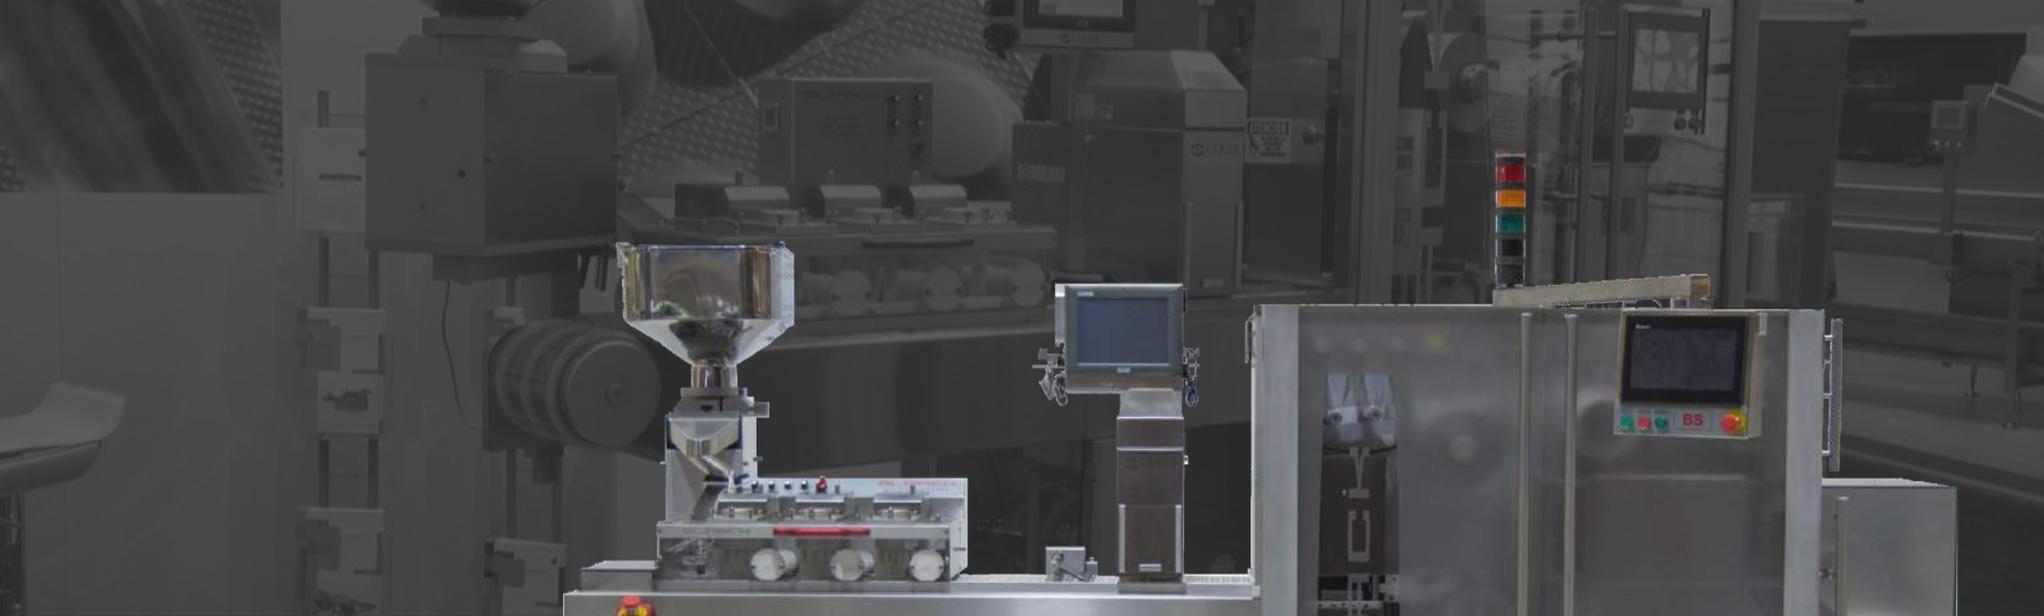

BLISTER MACHINES

200 SERIES
240 SERIES
MC SERIES

Heavy duty construction, quick and easy maintenance and change over. User friendly machine operation. Fully PLC driven. Manufactured according GMP standards. Smooth and safe operation. A wide range of accessories and feeders are available to increase production.

SMART BLISTER PACKAGING MACHINE

BS MACHINE

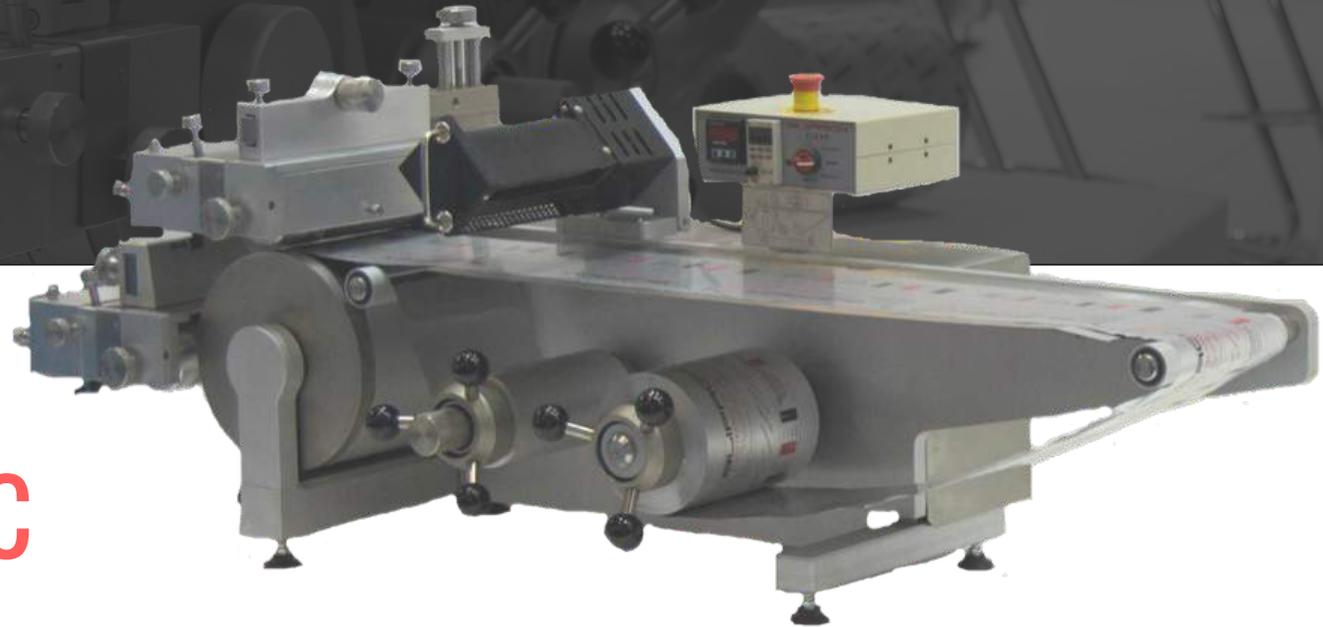

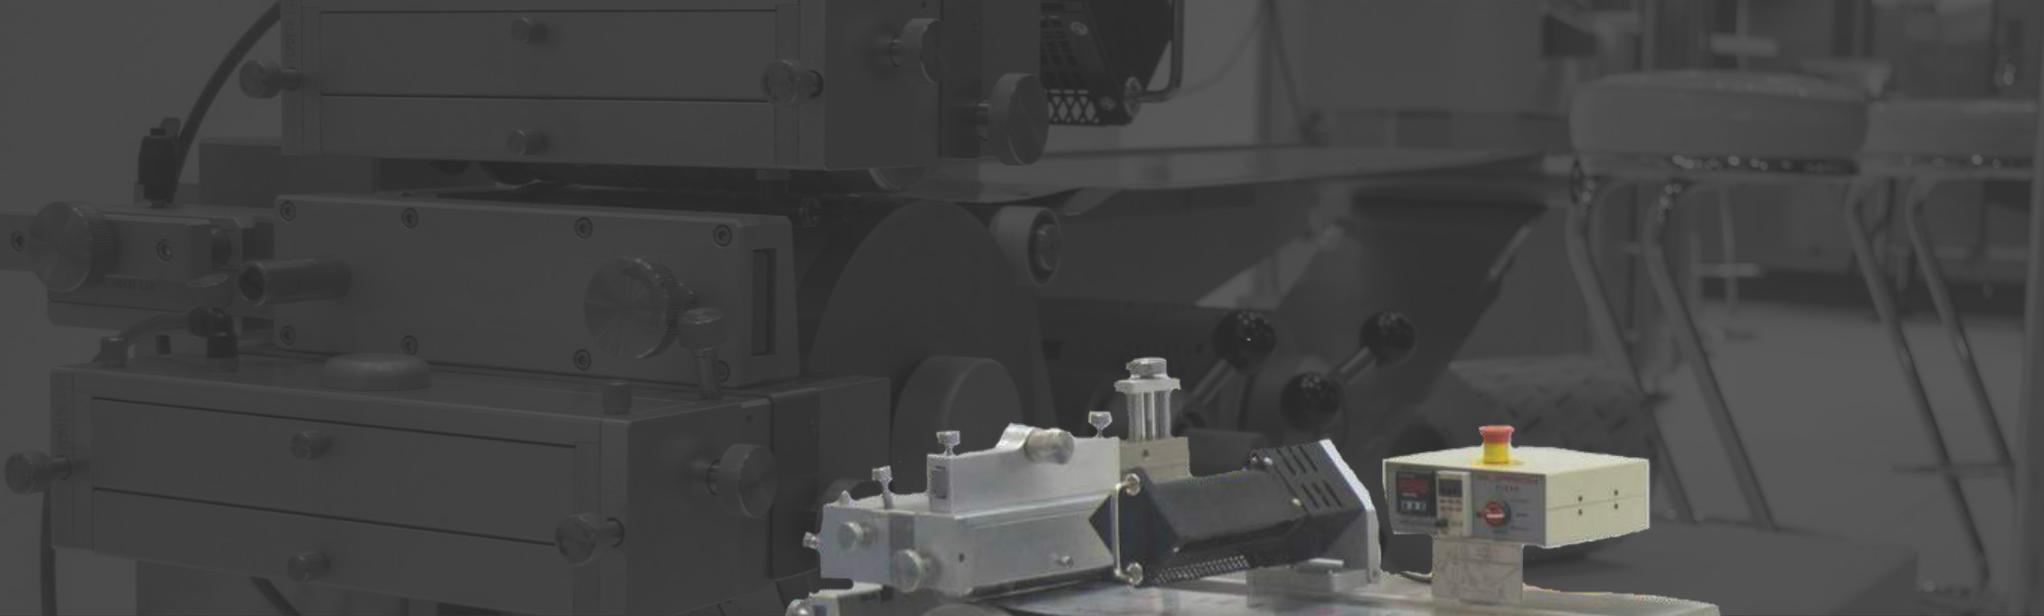

Small footprint. Less scrap. Less air consumption. Fixed and independent stations, servo driven, adjustable through HMI. Quick and easy set up. Quick packaging material rolls change over through self centered mechanism. Quick and easy change over (no tools required). Designed and manufactured according cGMP and CE standards. Balcony configuration. Suitable for R&D.

CARTONER MACHINE

ACM 150

Current GMP standards design and manufacturing. Quick and preset configuration for fast size change over with no need of fine-tuning adjustment. Possibility to handle all types of closure: Tuck-in, hot melt glue, mixed or tamper evident. Easy and safe operation controlled by PLC.

FLEXOGRAPHIC PRINTER

Essential for those who process different kind of products and do not want to depend on minimum purchases, over prices, delivery lead time and/or uneconomical stock. User-friendly controls. Simple operation and cleaning. Very easy maintenance. Print registration or continuous printing with new printing head. Two colours printing available.

02

PHARMACEUTICAL CONTRACT SERVICES

Pharmaceutical product R&D, contract manufacturing and packaging according to GMP standards.
